## Welcome to summer!

EnergyFlowe continues to create a wide and diverse client base.

Not only do we offer competitive prices for gas and electric, we aim to give good service and add value, utilising our extensive experience in the industry.

We never cold call. All of our clients have been created from recommendations and referrals.

## Pricing trends

The wholesale cost of power and gas has moved markedly upwards recently due to the pressure driven by the increase in Crude oil prices and the crisis in Iran. The key driver is a surplus of oil. OPEC countries are withholding billions of barrels of oil and drip-feeding them into the worldwide system. We do not see a change in this policy and industry forecasts are not optimistic for a drop in oil prices which would then have a knock on effect on UK wholesale energy prices over the coming months.

The weather men tell us we can look forward to a few weeks of good weather and lots of solar power!

I hope you are all able to enjoy the seasonal summer weather.

**Charles Lowe**

## Client Satisfaction

Harrogate Lifestyle Apartments provide luxury serviced apartments to the business and leisure markets. Andrew Armstrong, Managing Director, commented:

*"Managing a mixed use property with thirty two apartments often proves challenging particularly when dealing with different utility providers. Charles has brought his skill and expertise to enable us to obtain the best market rates with strategic support for determining contract lengths, resulting in reduced overall costs. I have no hesitation in recommending Charles to other businesses."*
